## BEECHCRAFT® KING AIR® 250

The world's most successful business turboprop now has more capability than ever. With solid performance by every measure, the King Air 250 flies with no compromises. With its new Enhanced Payload option that increases maximum takeoff weight, the King Air 250 now easily departs with more than 1,000 pounds of payload with full fuel. Experience legendary comfort in the signature King Air cabin, specifically designed to provide generous space in club seating. Performing daily on short and unimproved runways and at big city airports, no matter where opportunity lies, the King Air 250 delivers.

**Square-oval fuselage design offers more head and shoulder room**

**Rugged, dependable and versatile**

**Private aft lavatory**

**Ram air recovery maintains maximum performance in icing conditions**

**Heated, pressurized stowage accessible in flight**

**Fuel efficient and environmentally responsible**

**State-of-the-art Rockwell Collins® Pro Line 21™ integrated flight deck**

**Short-runway takeoff capability affords access to more airports**

**Enhanced Payload option for even greater performance with heavy loads**
