

**Surveillance** | **See the invisible.**

## KING AIR 350ER

King Airs are ideal surveillance aircraft. Each model features a large, pressurized, environmentally controlled cabin, high dash speed and extensive endurance. Imagery systems have been installed in virtually all models of the King Air. Today's datalink technology allows relatively simple transmission of real-time streaming video to fixed or vehicle-mounted ground receivers for timely dissemination to tactical units. The King Air 350ER offers the most endurance, performing overland surveillance with sufficient payload to operate a moving target indicator, synthetic aperture radar, EO/IR (FLIR), streaming video datalink, self-protection systems and a wide variety of high-performance communications systems.

### Affordable surveillance

**Mission persistence up to 12 hours**

**Range of more than 2,500 nm**

**7,280 lbs. of useful load**

**Certified to 35,000 ft.**

**Unimproved runway operation**

**On-board mission workstations**

**Quick easy interior reconfiguration**

**Flexible sensor combinations**

**Outstanding mission-readiness**

**Export versions available**

### AVAILABLE MISSION EQUIPMENT

#### Mission Radars

Overland Surveillance Radar  
Maritime Search Radar  
Synthetic Aperture Radar  
Ground Moving Target Indicator

#### Maritime/Theatre Use

Direction Finder  
Observation Windows  
Drop Hole  
Aircraft Survivability Equipment  
COMINT/SIGINT

#### Data Links

Real Time or On-Demand  
Line-of-Sight—Omni  
Line-of-Sight—Directional  
Beyond Line-of-Sight  
Satellite Link  
Ground Terminal Link

#### Communications

Secure Voice and Data  
SATCOM  
VHF, V/UHF, HF

#### Imagery

Electro-Optical/Infrared  
Recorders  
Mapping Cameras  
Hyperspectral/Multispectral  
Moving Maps
