

BEECHCRAFT® AT-6

**The Future of Light Attack is Here.**

## Capable. Affordable. Sustainable. Interoperable.

One platform with multiple missions: initial pilot training, weapons training, operational NetCentric ISR and Light Attack capabilities for irregular warfare. The Beechcraft AT-6 is a multi-role, multi-mission aircraft system designed to meet a wide spectrum of warfighter needs:

- Based on the proven Beechcraft USAF T-6A and USN T-6B
- Designed to accommodate 95% of the aircrew population; widest range in its class
- Lockheed Martin plug-and-play mission system architecture adapted from A-10C
- Sensor suite adapted from the MC-12W
- Flexible, reconfigurable hardpoints with six external store stations
- Long persistence with two aircrew and weapons; up to 1,485 nm self-deployment range
- Extensive variety of weapons including general purpose, laser guided and inertially-aided munitions
- The only fixed-wing aircraft to fire laser guided rockets

## Unparalleled attributes with a wide range of options.

### AIRFRAME AND POWERPLANT

- 1,600 shaft horsepower engine
- ISR suite and six external store hardpoints
- Light armor

### COMBAT MISSION SYSTEMS

- Mission systems by Lockheed Martin
- NVIS cockpit
- Helmet-mounted cueing system
- Infrared missile warning and countermeasures

### COMMUNICATIONS SUITE

- Secure voice and data
- Rover-compatible full motion video
- SADL/Link-16 compatible
- SATCOM

### ISR SUITE

- MX-15Di

### WEAPONS INTEGRATION

- 1760 capable stores management system
  - .50 Cal Gun
  - 20mm Gun
  - 250/500 lb. laser guided GPS or GP bombs
  - Laser guided missiles
  - Laser guided rockets
  - Small 1760 weapons
