

Flight Inspection | The best approach to ensuring a good approach.

KING AIR 250 | 350

A stable platform with outstanding range and excellent handling characteristics, the King Air is the preferred flight inspection aircraft. And with 100+ aircraft delivered to flight inspection programs worldwide, Beechcraft stands ready to provide the right aircraft for you. Whether the mission requires the extended range of border-to-border flight calibration or the speed and comfort of a combined flight inspection/executive transportation configuration, the King Air is the right aircraft. Beechcraft can also organize the installation of flight inspection mission equipment from any major manufacturer you require, to provide a customized solution that's perfect for you.

Beechcraft can arrange installation of flight inspection mission equipment from any of the FIS manufacturers

Flight calibration to ICAO, FAA and country-specific standards

Stable, solid handling characteristics for maximum accuracy and repeatability

State-of-the-art Rockwell Collins® Pro Line 21™ integrated flight deck

Economical, fuel efficient turboprop engines.

Operable from short and unimproved runways

Weight, cabin volume and electrical capacity to support installation of all Flight Inspection System (FIS) Packages

Square-oval fuselage design offers more head and shoulder room

Rugged, dependable and versatile

Private aft lavatory

Superior mission flexibility and value

PERFORMANCE

Max Cruise Speed (232 mph)	202 kt	374 km/h
Max Service Ceiling	20,688 ft	6,306 m
Range: Ferry	1,480 nm	2,741 km

ENGINES (Teledyne Continental IO-550-C)

Output (Each)	300 hp	224 kW
---------------	--------	--------

WEIGHTS

Basic Empty Weight	4,030 lb	1,838 kg
(Standard Equipped Aircraft)		
Useful Load	1,494 lb	678 kg

DIMENSIONS

EXTERNAL		
Wingspan	37 ft 10 in	11.53 m
Max Aircraft Length	29 ft 10 in	9.09 m
Max Tail Height	9 ft 9 in	2.97 m
INTERNAL (CABIN)		
Length	12 ft 7 in	3.84 m
Width	3 ft 6 in	1.07 m
Height	4 ft 2 in	1.27 m

**Typ. equipped, w/1 pilot @ 200 lb, unusable fuel/oil. Available in extended range, cargo door, high-flotation landing gear and other options for special missions application.*
